Original text **Fernanda Rodríguez Muguruza**  
Illustrations and layout **Eva Rami**

An **evil virus** wanted all people to get sick.  
To have fever, to cough and not be able to breathe.

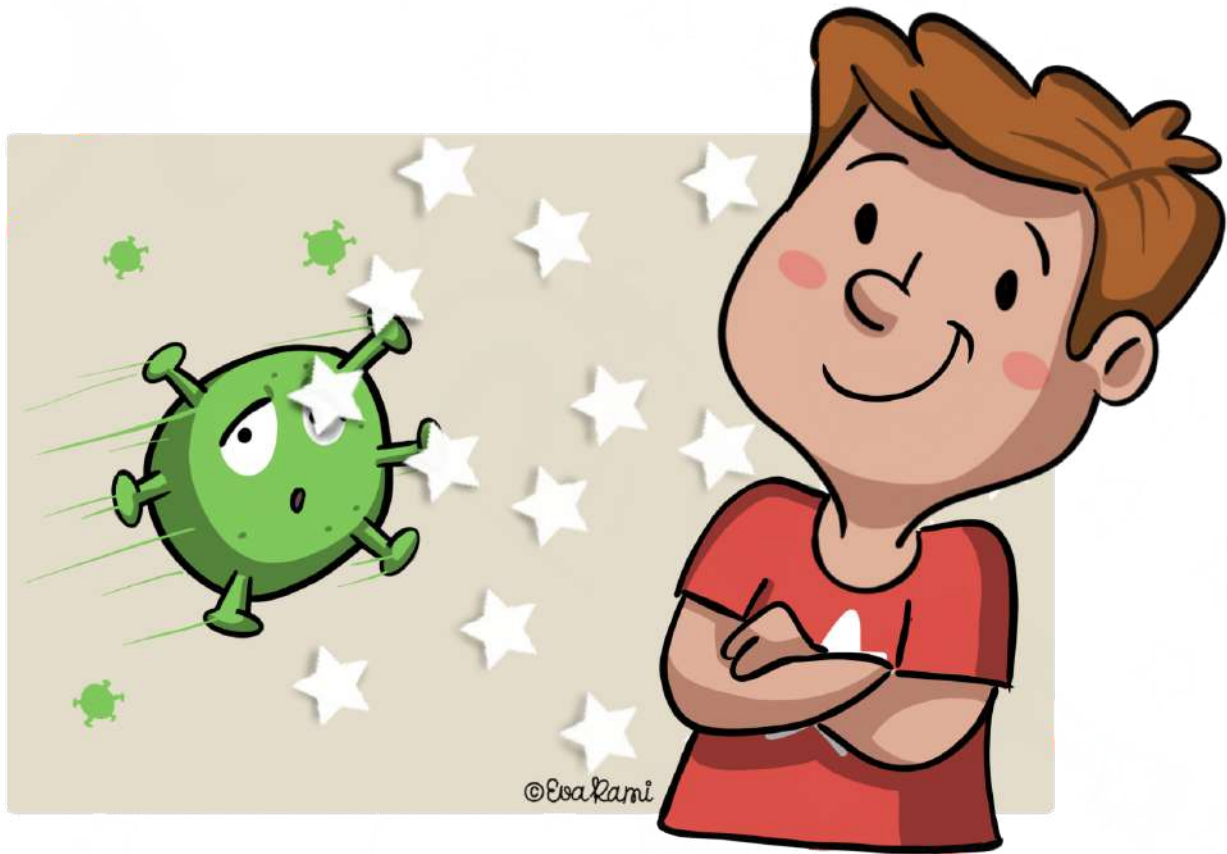

This virus **was very fast**  
and went into many places.  
Attacking schools, shops, buses, restaurants  
and many other spaces.

We are very sad, we want this sickness away.  
United we must fight, **AT HOME WE WILL STAY!**

During some days  
we can't attend school.  
Being at home, however, can also be cool!

There are some important rules about not getting ill  
and if we follow them, **the virus we can kick.**

With **water and soap** we wash our hands well.  
We must be clean to ring like a bell.

Say hello from afar and put on your face a smile.  
Let's left kisses and hugs apart for a while.

If you cough or sneeze,  
you should cover it **with your elbow.**  
You can also clean yourself with a napkin, though!

Remember that now we can't be so close.  
But keeping our **distance** we can also talk.

The most important thing is  
that your face should not be touched.  
Don't bring your hands to your eyes,  
nose and mouth, avoid any nudge.

To take care of the world,  
I will do everything in my power!

Solidarity is an important value we can show every hour.

When we will finally leave home,  
hugging will be great.

Everyday will become a party,  
we'll surely have fun mate!

We will know that each one of us is **blessed**.  
To have our family and friends by our side, together is  
best.

The flowers, the sky and the sea are a gift.  
We will leave behind all the bad things.

And, when it all passes,  
we will understand how **beautiful life and humans are.**

**We will then enjoy the sunset  
and dance under a star.**

**The end.**
